

Project controls expertise, embedded where delivery needs it most.

PMIS UK provides senior-led consultants and integrated teams across project controls, PMO, commercial evaluation, tendering, reporting and digital delivery.

Senior-led	Full lifecycle	UK + international
Direct accountability	Concept to operations	Remote, hybrid or site

What we deliver

Planning & scheduling Integrated schedules, schedule health, progress measurement and recovery planning.	Cost & commercial controls Forecasting, VOWD, cash flow, change impact, invoices and at-completion cost.
PMO & governance Assurance gates, portfolio reporting, mobilisation and decision-focused governance.	Risk & assurance Quantitative risk analysis, independent controls reviews and practical mitigation.
Tendering & proposals RFP packages, compliance, programme, evaluation, scoring and controlled submission.	Reporting & PMIS Power BI dashboards, data integration, automation and one-source-of-truth reporting.

Who we support

Asset owners and operators | EPC and delivery contractors | Consultancies and investors | Public and regulated programmes

Experience across complex programmes.

WEST NILE DELTA	BP \$8bn major gas development
Challenge	Integrate subsea, offshore, drilling, commissioning and start-up schedules across a multi-contractor programme.
Approach	Project services leadership, schedule integration, SIMOPS, change evaluation, risk and executive reporting.
Outcome	Supported \$45m variation savings; subsea scope reached its control milestone six weeks ahead of P20 and start-up ramp-up completed six weeks ahead of baseline.

CONNAH QUAY	Technip Uniper client Low-carbon power
Challenge	Test the proposed execution strategy, discipline inputs and resources against client delivery dates.
Approach	Planning deep dive, scope and MDR alignment, what-if scenarios, change quantification and cost exposure.
Outcome	Evidence-led execution review, alternative delivery scenarios and a digital reporting approach designed around one source of truth.

Digital project controls

Oracle Primavera P6 | Primavera Risk Analysis | Power BI | Python | Dynamics 365 | Power Apps | Power Automate | SharePoint | SAP S/4HANA
